

**What happened to the old skatepark?**

It was removed in the Spring of 2020 and reverted back to an empty asphalt lot due to safety concerns relating to the construction and deteriorated condition of the park.

**What is the current status of the project?**

With creative designs complete and almost \$400k of funding available, the project is about to move into the permitting phase with San Luis Obispo County. Once permitting is complete the project will be put out for construction bids. At that point construction can start as soon as funding is available.

**How much is this going to cost?**

The current best estimate is \$650,000 based on designs provided by the professional skatepark design and construction firm Spohn Ranch, but we will not have an exact figure until the permitting process is complete/exemptions have been addressed and we have a finished final cost estimate.

**How is the project being funded?**

Funding for the project comes from three primary sources: money committed by CCSD, money raised by Skate Cambria through public donations, merchandise sales, and events, and finally money available through various grant opportunities.

**When will the project be completed?**

If all goes according to the proposed schedule, Cambria should see a start to construction before the end of 2022!

**Where is the new skatepark being built?**

At the same location as the old skatepark, across the street from the Vet's Hall and next to the library.

**Why should I care about this project if I don't skateboard?**

Beyond just a skatepark, this project will create a youth friendly space in Cambria where people can gather and connect. It will help bring vibrancy to Cambria's downtown and will be a space that is welcoming to both locals and visitors.

**Will the park only be used for skateboarding?**

In addition to skateboarding, the park will create a space for other wheeled sports including scooters, roller skates, rollerblades, and even wheelchairs.

**What will the new skatepark be like?**

The skatepark will have a mix of street and transition features that will support skaters with a range of interests and abilities. The park will be constructed as a modern concrete skatepark that requires little maintenance, and will last for generations to come.

**What will be the hours of operation?**

The park will be open from dawn till dusk 365 days a year.

**Who is Skate Cambria?**

Skate Cambria is a community group of youth, parents, and other local skaters that have banded together with the mission of rebuilding the Cambria skatepark.

**Are donations tax deductible?**

Yes, Cambria Community Council has stepped in as Skate Cambria's fiscal agent /501c(3) so all donations are tax deductible.

**How can I donate?**

You can donate via our website <http://www.skatecambria.com>, or you can find us every Friday across the street from the Farmers' Market from 3:00 p.m. to 4:00 pm at our weekly fundraising rally. We have also launched a Capital Fundraising Campaign where donors can receive permanent recognition for their contributions. See website for additional details. There are bricks or plaque placements.

**What can I do to help besides donate?**

To get involved please reach out to us. We look forward to hearing from you. #WE WANT TO SKATE.
